Statement on Batam Incident

Yinson Production regrets to report that a fatal incident occurred on 23 August 2024 at a fabrication facility operated by one of our contract partners on Batam Island, Indonesia, involving an employee of a subcontractor, not Yinson. Despite receiving immediate medical assistance, the individual tragically passed away. Our deepest sympathies and condolences go out to the family during this difficult time.

Yinson Production acknowledges the risks which are part of our contract partner's operational environments. As part of our commitment to continuous improvement and sustainable risk mitigation, we continue to provide leadership and support during investigations related to governance, risk, and compliance.

A series of high-value learning opportunities have been identified because of the incident, and we are fully committed to assisting our contract partners in addressing these issues promptly and thoroughly. The incident has not affected the progress of the project.
