

Yinson hosts Malaysia Prime Minister Anwar Ibrahim in Rio de Janeiro, Brazil, celebrating strong Malaysia-Brazil ties and Yinson FPSOs

Rio de Janeiro, 17 November 2024 – Yinson Holdings Berhad (“Yinson”) proudly hosted Malaysia Prime Minister, The Honourable Anwar Ibrahim at a networking reception in Rio de Janeiro to celebrate the strong ties between both countries, which is marked by a shared commitment to innovation and growth.

The event, held at the Windsor Barra Hotel, was also attended by Minister of Investment, Trade and Industry Malaysia Tengku Zafrul bin Tengku Abdul Aziz, Minister of Foreign Affairs Malaysia Haji Mohamad bin Haji Hasan, and Malaysia Ambassador to Brazil Her Excellency Gloria Corina Anak Peter Tiwet alongside Yinson’s senior leadership, clients Petrobras and Brava Energia and representatives from Yinson’s Brazil office.

The event also celebrated the three floating production, storage and offloading (“FPSO”) units that Yinson Production has developed for Brazil – Anna Nery, Maria Quitéria and Atlanta. FPSO Anna Nery commenced operations in May 2023, while FPSO Maria Quitéria achieved first oil last month in October 2024. FPSO Atlanta is expected to achieve first oil soon, joining Yinson Production’s fleet in bolstering the nation’s energy capacity, contributing to Brazil’s economic development.

Prime Minister Anwar Ibrahim in expressing his pride in Yinson’s projects in Brazil, commented, “These successful FPSO projects exemplify the mutual respect and trust that Malaysia and Brazil have built over the decades. Yinson’s remarkable work in developing FPSOs for Brazil underscores Malaysia’s capacity for excellence and our commitment to supporting global energy needs with innovation and responsibility.”

During his speech, Yinson Group Chief Executive Officer, Mr Lim Chern Yuan, reminisced the company’s first foray into Brazil in 2018. He said, “Brazil was, back then, and still is now, the biggest FPSO market in the world. We dreamed of expanding our business to this country and started building our knowledge and understanding of Brazil long before we even bid for our first FPSO project here. We found, in Brazil, a thriving and progressive business and regulatory environment as well as stakeholders that shared our similar concern for facilitating an inclusive energy transition and looking at energy affordability.”

Yinson Production Brazil Country Manager Thiago Freitas also shared a few words, saying, “Our three FPSO projects in Brazil exemplify world-class engineering, cutting-edge technology, and a commitment to safety, efficiency, and sustainability. The learnings that both countries have gained by working together have enhanced the standards of FPSOs globally, notably in the area of low emission designs. We are looking forward to many more years of impactful partnership between our countries.”

The event also set the stage for the official opening of Yinson Production’s new office in Rio de Janeiro on 18 November, a strategic move that reinforces Yinson Production’s dedication to a long-term presence in Brazil. With this expansion, Yinson Production further strengthens

its position in the region, providing greater proximity to key clients, stakeholders, and industry partners, and creating socioeconomic opportunities within the local community.

Malaysia Prime Minister Anwar Ibrahim, flanked by (from left to right) Malaysia Ambassador to Brazil Gloria Corina Anak Peter Tiwet, Minister of Foreign Affairs Malaysia Haji Mohamad bin Haji Hasan, Yinson Group Chief Executive Officer Lim Chern Yuan, Yinson Non-Independent Executive Director Madam Bah Kim Lian, Group Executive Chairman Lim Han Weng, Minister of Trade and Industry Malaysia Tengku Zafrul bin Tengku Abdul Aziz and Yinson Brazil Country Manager Thiago Freitas, commemorating Yinson Production's 3 FPSO units in Brazil at the Malaysia-Brazil celebration held at the Windsor Barra Hotel.

About Yinson Holdings Berhad

“Passionately delivering **powerful** solutions”

Yinson Holdings Berhad is a global energy infrastructure and technology company, listed on the Main Market of Bursa Malaysia Securities Berhad. We are active in five businesses:

- Yinson Production is a leading independent owner and operator of floating production, storage, and offloading (FPSO) vessels worldwide, with an orderbook of close to USD 22 billion until 2048.
- Yinson Renewables is a global independent renewable power producer with 557 MW of utility scale renewable generating assets in operation, a pipeline of over 1.5 GW of projects in development and over 3 GW of early-stage opportunities.
- Yinson GreenTech is a green solutions provider that aims to electrify the transportation and logistics sectors across land and sea by delivering a clean, integrated and technology-enhanced zero-emissions ecosystem.
- Farosson is an advisory, investment and asset management group with a niche in sustainable infrastructure investments.
- Regulus Offshore owns and charters offshore support vessels (OSVs) supporting the offshore industry.

We are recognised for our leadership position in sustainability and ESG. We set the Climate Goals to be carbon neutral by 2030 and achieve net zero by 2050 and are actively implementing solutions, through our businesses, towards a low carbon future.
